DETAILED ACTION

This Office Action is in response to applicant's amendment filed on 09/22/2004.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a method and computerized system for managing railcar movement in a railyard comprising a plurality of subyards to control and simulate a time dependent train schedule. The railcar movement simulation system includes means and steps: inputting flow rate model parameters related to yard operation, subyard flowrate influences, railcar movement, and train model, simulating subyard task flow utilizing a yard performance model and the task flow rate parameters, and determining if a train schedule met a desired time interval based on the simulated railyard task flows.

The prior art of record does not expressly disclose the claimed invention in a manner as present in the claims. The claims are thus deemed allowable over the prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
